PVC SUSTAVI

EKOSUN

PROZORI - VRATA - PATIO - HST - SLIDE

Sustav za prozore i vrata

EkoSun 70

Ekonomičan sustav dizajniran prvenstveno za višestambenu izgradnju. Zahvaljujući njemu pobijedit ćete na natječajima, pridobiti velike klijente i steći snažne argumente u razgovoru sa svakim investitorom – od privatnih osoba do institucija.

Tehnički parametri:

$U_f = 1,2$ | $U_w = 0,82-1,2 \text{ W/(m}^2 \times K\text{)}$

Varijante:

Renovacija

2

Broj brtvi:

6

Broj komora:

70 mm

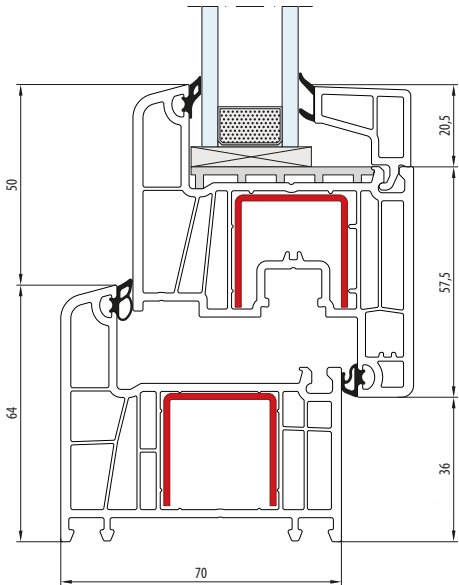

Dubina ugradnje:

44 mm

Ostakljenje do:

EkoSun 70	fiksni prozor	jednokrilni prozor	dvokrilni prozor
propusnost zraka	3	3	3
vodonepropusnost	6A	6A	6A
otpornost na opterećenje vjetrom	C2	C3	C3

Sustav za prozore i vrata

EkoSun 6

Nasljednik sustava EkoSun 70 s dubinom ugradnje prilagođenom suvremenim standardima. Predstavlja idealnu osnovu ponude za klijente koji traže visoke parametre karakteristične za premium segment.

Tehnički parametri:

$U_f = 1,2$ | $U_w = 0,79 - 1,2 \text{ W/(m}^2 \times \text{K)}$

Varijante:

Renovacija

2

Broj brtvi:

6

Broj komora:

81 mm

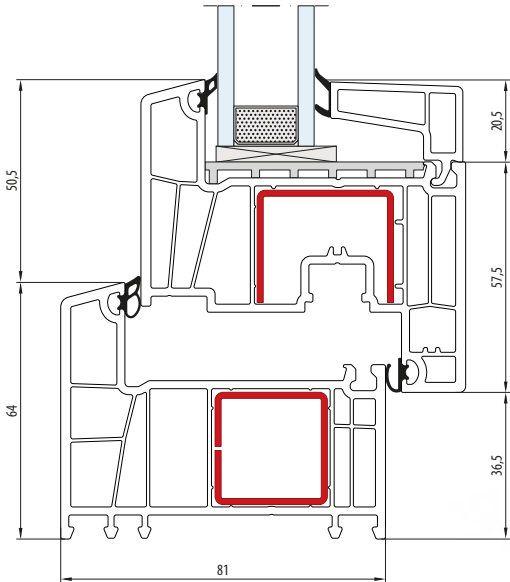

Dubina ugradnje:

55 mm

Ostakljenje do:

EkoSun 6	fiksni prozor	jednokrilni prozor	dvokrilni prozor
propusnost zraka	3	3	4
vodonepropusnost	A4	6A	4A
otpornost na opterećenje vjetrom	C2	C2	C2

Sustav za prozore i vrata

EkoSun 7

Ovaj moderan sustav savršen je odgovor na potrebe pasivne gradnje. Zahvaljujući 7-komornoj konstrukciji i središnjoj brtvi koja štiti okove, ne nudite samo prozor, već prije svega mir i stvarne uštede. Uz EkoSun 7 toplina ostaje u domu.

Tehnički parametri:

$U_f = 1,1$ | $U_w = 0,72 - 1,2 \text{ W}/(\text{m}^2 \times \text{K})$

3

Broj brtvi:

7

Broj komora:

81 mm

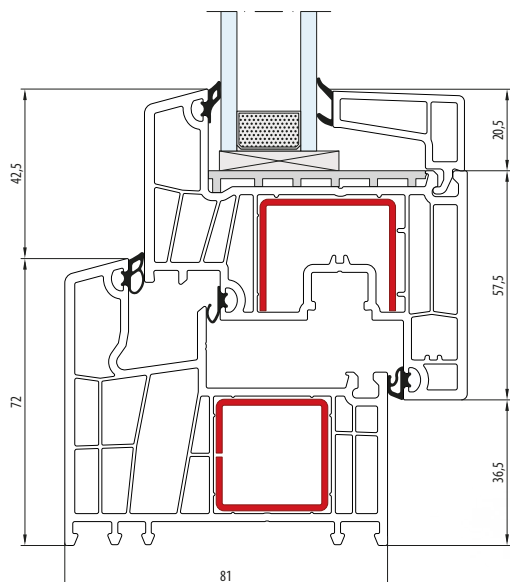

Dubina ugradnje:

53 mm

Ostakljenje do:

EkoSun 7	fiksni prozor	jednokrilni prozor	dvokrilni prozor
propusnost zraka	2	4	4
vodonepropusnost	6A	9A	6A
otpornost na opterećenje vjetrom	C2/B2	C4	B4

EkoSun Slide

Tehnički parametri:

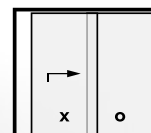

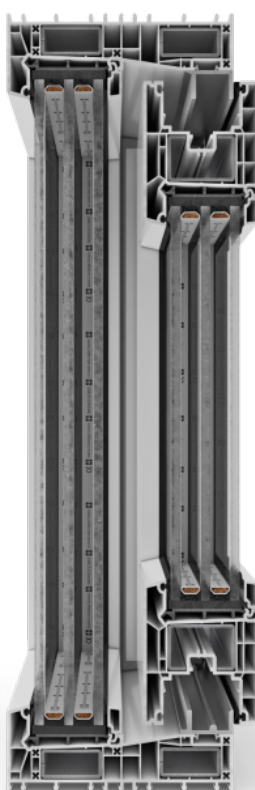

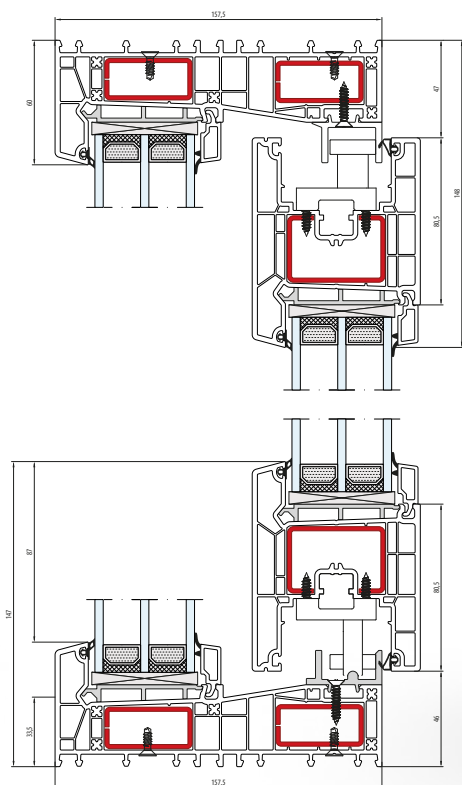

52 mm

81 mm

157,5 mm

A detailed technical cross-section diagram of a window frame assembly. The diagram illustrates the internal structure of the frame, including multiple panes of glass held together by seals. The frame is shown in a light gray color, and the glass panes are depicted with vertical lines indicating their thickness and position. The diagram highlights the complex sealing system that ensures the window is airtight and watertight.

EkoSun Slide	Shema A
propusnost zraka	3
vodonepropusnost	2A
otpornost na opterećenje vjetrom	B3

Podnosno-klizna vrata

EkoSun HST

Korištenjem podnosno-kliznog sustava EkoSun HST unosite revoluciju u prostor svojih klijenata. Pružate im tri neprocjenjive vrijednosti: spektakularne staklene stijene, maksimalnu količinu prirodne svjetlosti i prestižan dizajn. Bespriječan i lagan pokret čak i najvećih konstrukcija pretvara dnevni boravak u kućnoj zoni opuštanja savršeno povezanu s okolinom.

Tehnički parametri:

$U_f = 1,7 \quad | \quad U_w = 0,79 - 1,2 \text{ W/(m}^2 \times \text{K)}$

2,85 m

maksimalna visina konstrukcije:

400 kg

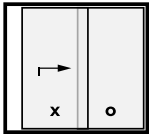

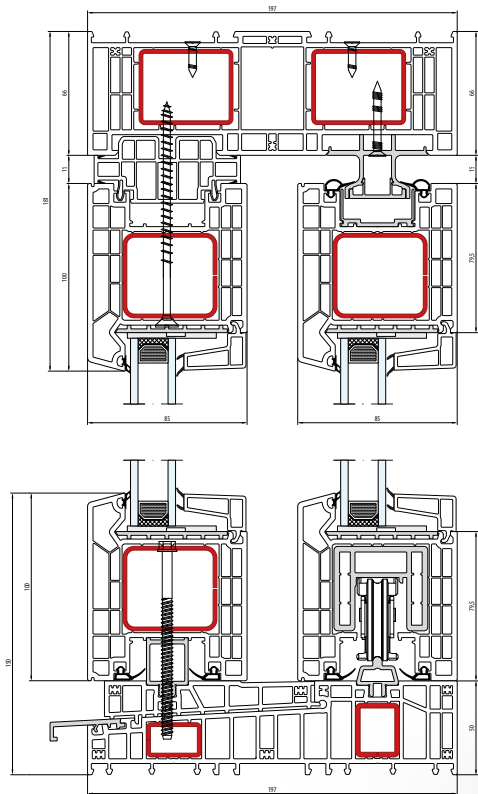

maksimalna nosivost krila:

13 mm

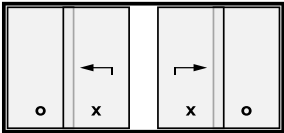

visina praga (vodilice):
